

#	Question	Answer
1	Do you use Biztalk HIPAA Accelerator for X12 transaction development? Can we assume that the HIPAA Accelerator will be used for 835 transaction development? Please confirm.	Yes, we use Biztalk HIPAA Accelerator for X12 transaction development installed with BizTalk 2006 R2. Yes, the HIPPA Acellerator should be used for the 835 transaction development.
2	Does KHS have reusable components to publish the files to KHS SFTP server?	We use third party N-Software SFTP Adaptor.
3	The RFP mentions the format conversion requirement from 4010A1 to 5010 for 835. Within Attachment B - Section B only refeences 4010A1 835 transaction development as scope. Please clarify the scope.	The title is misleading and the scope does not include a 5010 conversion requirement.
4	What is your approach and perspective to utilizing offshore resources to accomplish BizTalk tasks? Please explain your preferences and requirements.	Kern County, the state of California and the Nation are experiencing record unemployment levels. KHS prefers domestic employment. However, RFP responses will primarily be judged by price, ability to meet the delivery schedule, and a firm's reputation. All things being equal, labor source will be a secondary consideration.
5	Have you implemented Transaction History Logging for 4010 Implementation? If yes, is it shareable across transactions ?	No we have not implmented Transaction History Loggin for 4010 Implementation.
6	Please share your transaction volumes for claims, remittance advices, and associated transactions. What is the frequency of KHS remittance advice issuance?	Incoming claim volume per month: 80,500. Remittance Advices per month: 3,000.

#	Question	Answer
1	Will the 5010 conversion in 2012 be separately funded from the x12 835 to be delivered via this RFP or should our estimates include compatibility with 5010 format?	The title is misleading and the scope does not include a 5010 conversion requirement.
2	We will be utilizing a team of delivery people and typically do not identify individual resumes prior to delivery confirmation. We will be happy to provide a list of expertise but specific team members may not be known at this time. Is this acceptable?	This is acceptable.
3	Does your team have the HIPAA accelerator for BizTalk?	As above we have the HIPAA Accelerator for X12 transaction development installed with BizTalk 2006 R2

#	Questions	Answer
1	Is an existing schema of your operational data store available for review?	The schema was attached to the RFP. It is attached again.
2	What is the overall format you would like as a response to this RFP in addition to budgeting, milestones and key deliverables ?	The delivery date that has been established for the project is October 1, 2010. The project scope defines the key deliverables in Attachment B. The response should address project goals and timeline.
